

SALT RIVER-PIMA MARICOPA INDIAN COMMUNITY PAVE DIRT ROADS PROJECT

The Salt River Pima-Maricopa Indian Community in coordination with the Federal Highway Administration is planning a Congestion Mitigation and Air Quality Improvement Program project. The purpose of this project is to reduce fugitive dust emissions and improve air quality and safety. The scope of work for this project includes the placement of asphalt cement and aggregate base on the following roadways:

- McDonald Rd. between Alma School Rd. and Olive St.
- Mesa Dr. between Chaparral Rd. and 0.25 miles south of Indian Bend Rd.
- Alma School Rd. between the Arizona Canal and McDonald Rd.
- Center Street between McDonald Rd. and 0.5 miles south of Indian Bend Rd.

Shoulders and driveways will remain unpaved. Project construction is anticipated to be completed in 2013. Traffic will be controlled to minimize impacts to motorists, pedestrians, and construction personnel as necessary. Access to residences and businesses will be maintained through construction. Temporary construction easements may be required.

Your input is important. Please submit comments by **July 21, 2012** to SRPMIC c/o Jennifer Jack, Engineering and Construction Services Department, Two Waters Bldg B, 2nd Floor, 480-362-7747, jennifer.jack@srpmic-nsn.gov.
